

Project Profile

Custom Home Minnetrista, MN

R-Control Systems

Multiple R-Control EPS building systems were chosen in the design of this Energy Star home.

- ◆ R-Control EPS as underslab insulation
- ◆ R-Control ICF (Insulated Concrete Forms) as a foundation system
- ◆ R-Control SIPs for walls and ceiling

Energy Performance

The average winter heating bill for this 4964 sq. ft. home located in Minnesota is only \$48 per month.
