

Lake Home

Portage, Wisconsin
Summer 2004
R-Control Structural Insulated
Panels - Roof and Wall Panels
6,000 Square Feet

Application:

R-Control SIP Roof and Wall Panels used in barn conversion.

Project Details:

Architect: Rick Bott
R & B Enterprises

Contractor: Byron Perona
Country Craftsman

Summer 2004, builder Byron Perona utilized R-Control SIPs to save time and money on the conversion of a Portage, WI barn into a residential home. 2,500 square feet of 5 1/2" wall panels and 3,500 square feet of 10 1/2" roof panels were installed in the conversion of the barn.

Framing of the building was completed using R-Control SIPs in only 3 days.
