

New Residence

Fitchburg, WI
Spring 2003
R-Control Structural Insulated
Panels - Wall Panels

Application:

R-Control SIP Wall Panels for the construction of an award winning home.

Project Details:

Spring 2003, Builder Tom Woods and his team erected 5 1/2" R-Control SIP wall panels on a new home in Fitchburg, Wisconsin.

This home won the Wisconsin Energy Star building excellence award in Southwest Wisconsin for its energy efficiency. The blower door test also yielded the best results in Wisconsin for 2003.
