# TF SYSTEM.

## The Vertical ICF

*You are building a new home ... you have picked the lot, the flooring, and the color of the tub ...*

*Have you considered utility bills and insurance rates?*

*Will your home resist mold and termites?*

*Can you picture your home enduring hurricanes, tornados, and wild fires?*

*How long will your home last, looking and performing like new?*

*TF System® concrete homes are a solid investment. Built to last, they continue to offer low life cycle costs, including lower utility bills, reduced insurance premiums, and higher resale value. Your home will provide security and comfort for generations. To learn more about the advantages of a TF System® insulated concrete home, please call or visit our website.*
