Fasteners

Wood Screw
Foam-Control® Wood Screws are used to attach Foam-Control Nailbase/Nailstrip to wood structural members and substrates.
- Available in standard* lengths from 3” - 13”

Metal Screw
Foam-Control Metal Screws are used to attach Foam-Control Nailbase/Nailstrip to lightweight (up to 18 gauge) steel structural members and substrates.
- Available in standard* lengths from 3” - 13”

Concrete Screw
Foam-Control Concrete Screws are used to attach Foam-Control Nailbase/Nailstrip to all concrete structural members and substrates. Foam-Control Concrete Screws are installed into predrilled 3/16” holes.
- Available in standard* lengths from 3” - 13”

Fluted Concrete Nail
Foam-Control Concrete Nails are used to attach Foam-Control Nailbase/Nailstrip to poured concrete structural members and substrates. Foam-Control Concrete Nails are installed into predrilled 3/16” holes.
- Available in standard* lengths from 3” - 8”

FOAM FACTS:
Foam-Control Screws and Fluted Concrete Nails.
- Sit tight to the Foam-Control Nailbase/Nailstrip surface
- Heat treated steel for high strength and durability
- Coated for superior corrosion resistance
- 6 lobe drive design for screws
- Fluted nail design makes for ease of installation and grab
**Wood Screw**

- Head Style: 0.625” Pancake head
- Drive Style: T-30, 6 lobe
- Thread/ Shank Diameter: 0.255” / 0.190”
- Thread Length: 2.75” for 4.0”+ screws
- Point Style: Gimlet Thread

**Concrete Screw**

- Head Style: 0.625” Pancake head
- Drive Style: T-30, 6 lobe
- Thread/ Shank Diameter: 0.255” / 0.190”
- Thread Length: 2.75”
- Predrill Hole: 3/16” masonry bit

**Metal Screw**

- Head Style: 0.625” Pancake head
- Drive Style: T-30, 6 lobe
- Thread/ Shank Diameter: 0.255” / 0.190”
- Thread Length: 2.75”
- Point Style: #2 Drill Point

**Fluted Concrete Nail**

- Head Style: 0.4375” Pancake head
- Flute/Shank Diameter: 0.210” / 0.202”
- Flute Length: 4.0” for 4.5”+ nails
- Predrill Hole: 3/16” masonry bit

---

1. Contact your Foam-Control supplier for thread/flute length on shorter screws/nails.

---

**Specifications/Installation**

Fasteners as shown on plans and in specifications shall be supplied by the Foam-Control supplier.

Use Foam-Control screws and/or nails per Foam-Control recommended installation guidelines. Refer to Foam-Control Construction Manuals and Technical Bulletins showing proper design and applications.

---

**Foam-Control Accessory Availability**

Your nearest Foam-Control supplier will be happy to collaborate with you to determine your needs for Foam-Control Accessories. For additional information on Foam-Control products and to contact your nearest supplier visit [www.foam-control.com](http://www.foam-control.com).
