R-Control Do-All-Ply and SIP Tape

1.) Make certain surfaces are clean, dry, and free of dirt and foreign materials prior to placement of R-Control Do-All-Ply or SIP Tape.
2.) Store R-Control Do-All-Ply and SIP Tape in a warm area prior to installation during cold weather.
3.) Place R-Control Do-All-Ply in straight CONTINUOUS 1/2 in. diameter beads as shown in details.
4.) Place R-Control SIP Tape at joints between SIPs as shown in details.
5.) After SIP Tape installation, use a hard roller to apply pressure to the SIP Tape surface to promote adhesion.
6.) Apply SIP Tape or equivalent vapor retarder on interior or exterior of SIP per climate conditions or code requirement.
7.) Refer to R-Control Do-All-Ply and SIP Tape material safety data sheets.

NOTE: It is the responsibility of the installer to apply R-Control Do-All-Ply and R-Control SIP Tape properly.

Failure to install R-Control Do-All-Ply and R-Control SIP Tape in accordance with instructions and as shown in details will reduce the durability of the SIP structure.
